Barcode Quantities

Definition

Counterpoint has been updated to maintain package quantities by barcode for a part used when scanning parts at the point of sale and receiving.

Processing

Product Master Maintenance when selecting to “Maintain Barcodes” or Alt Barcode option allow for entry of the quantity for a Barcode.

image

When the barcode is scanned in invoicing or RF receiving the quantity on the barcode will be used.

> When entering a quantity on a barcode this must be in selling units as that is how it will be received or sold.
