

Change PO Number

Process

Pick Ticket/Z Slip

The process for changing the Z Pick Ticket PO number:

- When closing the Pick Ticket in the SF2 screen from Invoicing will have a new field for the New Po Number

Customer		005610		DESERT CARDLOCK FUEL		Pick Tickets to Invoice	
Payment		A Account		New PO Number		XXXXXX	
	Customer #	Reference	Ticket	Trans	Value		
1		XYZ-ABC	26812	1	128.49		
2							
3							
4							
5							
6							
7							
8							
9							
10							
11							
12							
13							
14							
15							
16							
17							
18							
really change XYZ-ABC? Y							

- If you enter a different PO number you will receive the question to “really change [original PO number]? You will need to answer the question with Y or N, the default being Y
- You will then be prompted “really invoice [original PO number]?”
- The PO number will be changed on all associated pick tickets

Invoice

To change the Customer Purchaser Order number on an invoice

- In the invoice screen recall the invoice using F3 then keying in the invoice number
- Select the Change option using "C"
- Press Enter through Payment Method, Invoice Discount, Freight
- Make Necessary changes to the PO Number and press enter
- Press Accept (F1) to complete the change.
- A Modified reprint appear if the parameters are configured to print Modified Invoices
