

# Pickups / Returns

## Overview

This tab shows a listing of all outstanding pickups and allows you to create pickup requests. Pickups are used only within the jDispatch module at this time, and are a useful way to keep your staff informed of the status of warehouse pickups as well as keep tabs on core & warranty returns from customers.

## Creating A Pickup

- To create a pickup request, click the **Create** button in the top right corner of the **Pickups / Returns - Today** panel.

- Once clicked, the **Add New Pickup Request** modal will show

**Add New Pickup Request**

**Pick-Up Type**  
Please Select... ▼

**Enter Customer/Supplier**  
[Text Input Field]

**Select Driver**  
Select Custome... ▼

**Information**  
[Text Input Field]

**Part** [Text Input Field] **Qty** [Text Input Field] **PO** [Text Input Field] **Ordered By** [Text Input Field]

Adding parts is optional.  
Begin typing to add additional items.

**Close** **Create**

- Start by selecting the type of pickup (Customer or Supplier/Warehouse), then select the customer or supplier they should be visiting. To pick a customer or supplier, begin typing in the name. A number of options should start to display. Once the one you wish to select is visible, just click on their name.
- If it is a customer pickup and there are any drivers currently assigned a delivery to that customer, that driver will be automatically selected as the driver. You can change this. If there are no drivers currently scheduled to deliver products to this customer, please select a driver to assign the pickup to.
- In the information field, type in any notes you want to be visible to the driver when they view the pickup request on their phone.
- If there are specific parts to be picked up, you may enter them in the **Items to be picked up**. As you type in the first field, another part field will appear.
- Clicking the **Create** button at the bottom will finalize the pickup request and send it to the selected driver. It will also appear in the pickup listing table

## Adding items to a pickup request

Once a pickup is created, you can add additional items to the pickup request via the pickup listing

- Click the expand down button next to the pickup you want to add to

- Enter in part information such as part number, qty, PO and who is requesting the item
- Click the green plus symbol button to the right of the part entry row

## Change driver assigned to pickup request

Any pickup requests that have not been completely confirmed can have the assigned driver changed

- Click the edit icon next to the driver's name on any delivery you wish to change

Pickups / Returns - Today							Refresh	List By Part	
Type	Cust/Supp	Information	Driver	Status		Age / Pickup Time			
	Filter By Name		View All	View All					
Supplier Pickup	BRANCH 3 - MISSION 32559 LOGAN AVE, MISSION, BC	Bring To Maple Ridge	Chilliwick	Requested	2021-08-20 09:43:49	41			

- This will present you with a drop-down of drivers to select. Once you select a driver, the pickup request will be transferred to that driver, and their device will receive a notification of the change

## View Pickups by Part number

You can optionally change the view of pickup requests to view the requests by part number in case you have a part number specific question you need answered.

- Click the **List By Part** button in the top right of the **Pickups / Returns - Today** panel

Pickups / Returns - Today							Refresh	List By Part	
Type	Cust/Supp	Information	Driver	Status		Age / Pickup Time			
	Filter By Name		View All	View All					

- This will change the pickup panel view to list the requests by part
